LASER GENESIS

PRE-TREATMENT INSTRUCTIONS:

- Please do not wear makeup on the treatment area the day of treatment.
- No sun-tanning or self-tanners 2 weeks prior to treatment (this includes spray tans, tanning lotions, tanning beds, sun exposure, etc.).
- History of recurring cold sores (Herpes Simplex Type I) may require an antiviral prescription prior to treatment.
- Avoid treatments that may irritate the skin for 1-2 weeks prior to treatment (depilatories, harsh chemicals, etc.).
- Do not use any of the following products on the treated area 3 days before and 3 days after treatment: harsh exfoliating cleansers or scrubs, Glycolic Acid, Salicylic Acid, Benzoyl Peroxide, bleaching creams, retinoids (Retin-A).
- Please notify your provider/medical staff of all medications you are taking, as some medications can make you photosensitive.
- The treatment area must be free of any open sores, lesions, or skin infections. For treatment of pigmented skin lesions, you should consult a specialist if there is a family or personal history of skin cancer or if you have any of these concerns.
- Please notify your provider if you have a history of Gold Therapy.
- You are not a candidate for Laser treatment if you are pregnant/breastfeeding or have been on Accutane in the last 6 months.
